RE: The 200 High Street Dispensary Exterior & Signage Project

Good morning Marie,

First, I would like to thank you and Karlens for your presentation to the Wharf District Neighborhood Council at our Tuesday February 21 meeting.

The presentation was informative, providing an update on the activities and timeline associated with the 200 High Street Dispensary, as well as, the interior and exterior designs and the outside exterior signage. The renderings showed the signage with the dispensary's Primitiv branding. The presentation was well received by the members and the Wharf District community residents in attendance.

I am pleased to inform you that the WDC board voted unanimously to support the outside exterior and signage that was proposed.

Please let me know if you need me to convey the WDC's support to any of the government agencies you are dealing with.

Sincerely,

*Susanne Lavoie*
